NOTE

The Lawskool Property Law Summary covers real property law, which at times touches on the areas of equity and trusts and torts law. If some of the material does not sound too familiar in terms of what you are learning in your “real property” course at university, it is probably related to Equity & Trusts. Don’t panic.

To help you to better understand how the law is applied in practice we have included an Exam Hints Section at the end of every heading. Some of these sections will include an exam style question and a flow chart detailing the sub headings that you should make and how you should go about answering the question in an exam.
